

SETTING UP APPLICATION ENVIRONMENT

Create Flask Project

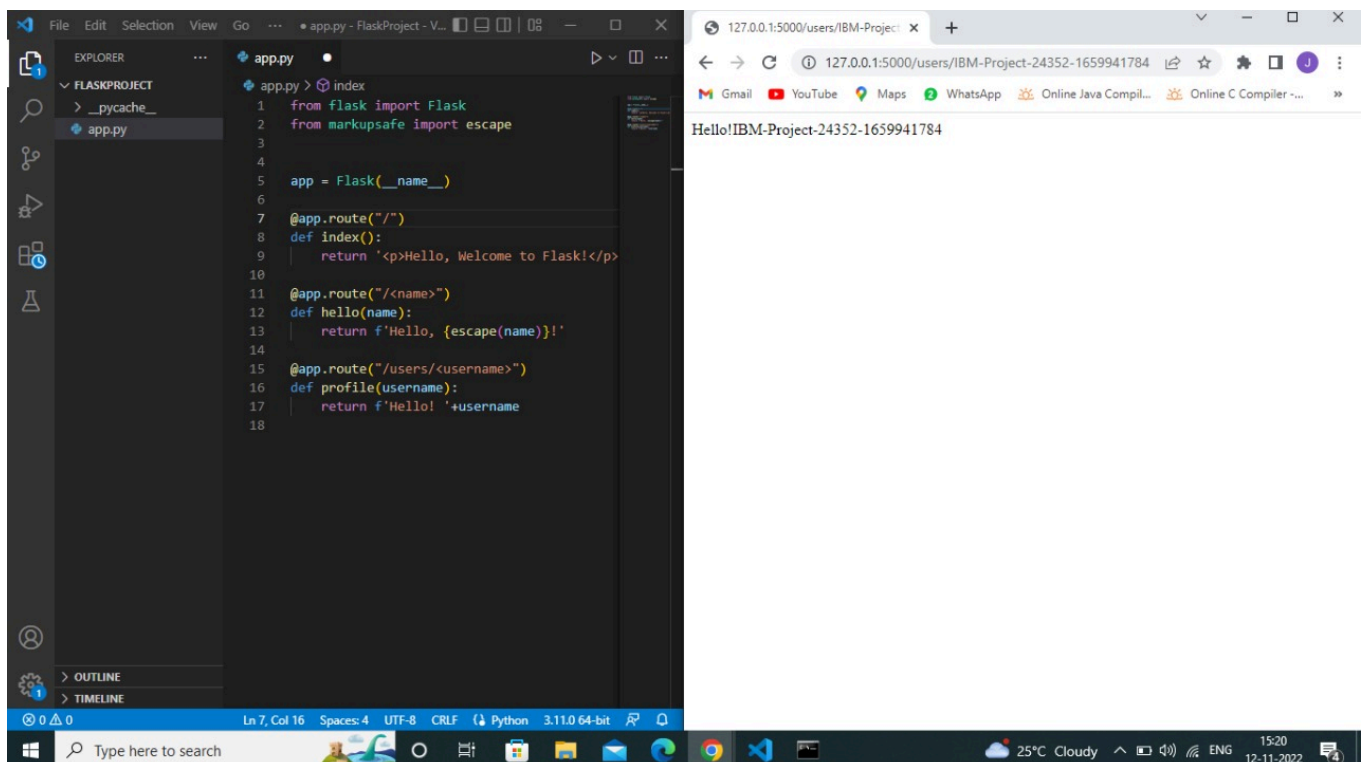

Date	17 November 2022
Team ID	PNT2022TMID20142
Project Name	Inventory Management System for Retailers

The screenshot shows the Visual Studio Code editor on the left and a web browser on the right. The VS Code editor displays the `app.py` file with the following code:

```
1 from flask import Flask
2 from markupsafe import escape
3
4
5 app = Flask(__name__)
6
7 @app.route("/")
8 def index():
9     return '<p>Hello, Welcome to Flask!</p>'
10
11 @app.route("/<name>")
12 def hello(name):
13     return f'Hello, {escape(name)}!'
```

The web browser shows the output of the application at `127.0.0.1:5000`, displaying "Hello, Welcome to Flask!".

The screenshot shows the Visual Studio Code editor on the left and a web browser on the right. The VS Code editor displays the `app.py` file with the following code:

```
1 from flask import Flask
2 from markupsafe import escape
3
